

I know from personal experience that faith, elbow grease and education hold the keys to success for all who dare to tune out the naysayers and – self-powered by grit – lace up their shoes every morning to take their shot at success.

And I am incredibly proud that the list of companies with great jobs looking to relocate to Nevada – a list that once fit on a post-it note with room to spare – now fills pages.

So, as we work 24/7 to bring new and more diverse job creators to Nevada, I also pledge to work for 21st century schools to make sure it's Nevada's kids – our kids – who win jobs when they compete against top graduates from other states and across the world in this increasingly interconnected economy.

That is why I am asking you to hire me again, and the success of our re-election campaign truly counts on your early support to carry this vision of well-grounded optimism and prosperity to grassroots voters across the state.

That's why I am counting on your help to spread this optimistic message backed by concrete results across all 17 counties by asking you to be among the very first to send back a **Campaign Kick-Off Gift** of \$50, \$100, \$150, \$200, \$250 or more to **Sandoval for Governor** today.

This campaign will be anything but a free pass and, with so much resting on the outcome, I'm counting on your renewed support for my campaign to tell voters on BOTH sides of the aisle about our conservative accomplishments and optimism for Nevada's future:

>> **Taxes: We've stopped not one but FOUR attempts to raise billions in higher state taxes, and these victories have you keeping more of your hard earned money in your pocket.**

>> **Balanced budgets: We've balanced two consecutive state budgets WITHOUT raising your taxes and we are working**
